

# SAFA SOULI

## FULL-STACK WEB DEVELOPPER & WEB DESIGNER

I am a Full web developer driven by solutions and adept at contributing to a highly collaborative working environment, finding solutions determining customer satisfaction. Practiced experience for 4+ years developing consumer-focused websites using HTML, CSS, PHP, and JavaScript, after spending many nights and weekends helping my friends and framing them to be better, I managed to be at TF-Téléconception as a full-stack development employer, and now I am working web-based products meet the highest web design standards, user experience, speed, and best practices of frontend development. I got the experience, and now I am looking for more of it and self-development, and a new safe environment to be involved with.
